BD-D5500

Smart 3D Blu-ray Disc Player

FEATURES

Full HD 1080p 3D Blu-ray

Experience movies like you're actually part of the action with Samsung's 3D Blu-ray disc player. Combining the vivid Full HD 1080p picture quality of Blu-ray with three-dimensional realism provides the ultimate home entertainment experience.

Ultra-Fast Play

Tired of waiting for your Blu-ray player to boot-up? Samsung Blu-ray players are equipped with Ultra-Fast Play that boots to the main start-up screen in just 3 seconds! Movie loading times are also greatly reduced providing faster access to all your entertainment.

Smart Hub

Access your favourite content from the Internet including movies, music and even your social network. Browse for information with ease using Search All™, Social TV™, Your Video™ and a variety of Samsung "Apps". Unleash the true multimedia potential of your Samsung Smart Blu-ray player with Smart Hub.

AllShare™

Samsung's AllShare™ feature enables you to share multimedia content with other DLNA certified devices across your home network. Wired or wirelessly you can easily playback movies, photos and music from your computer or other networked device through your Blu-ray player all from the comfort of your couch.

Wi-Fi Ready

Don't have an Ethernet jack in your room? No problem. Connect to the Internet wirelessly with the addition of Samsung's wireless USB LAN adaptor (available separately). Easily access Smart Hub "Apps", download firmware updates, interact with BD Live and connect with other DLNA devices seamlessly without the need for an Ethernet cable or jack.

USB ConnectShare™ Movie

Samsung's ConnectShare Movie™ capability allows you to playback various types of video, music, and image files via the USB port. You can attach a USB Drive or portable Hard Disk Drive and playback formats including DivX HD, MKV, MP3, WMA and JPEG HD.

HDMI™ with Anynet+ (HDMI-CEC)

A true plug and play product, HDMI™ enables you to connect your HD video and audio with one simple cable. The Anynet + (HDMI-CEC) feature allows you to operate multiple supported HDMI™ products with a single remote.

BD Wise™ 1080p Up-Scaling

This advanced technology takes DVD 1080p up-scaling to the next level with Blu-ray-like video quality. Using 2-way HDMI™ communication, the DVD player identifies supported Samsung HDTVs and the two devices automatically optimize picture settings for the highest quality DVD video.

BD Live

BD Live (Blu-ray Profile 2.0) lets you download additional content and interactive features directly to your Blu-ray player with an Internet connection on BD Live supported discs.

TERMINALS

USB: Yes
